TABLE BASE PARTS	101

GENERAL INFORMATION

All information in this price list supersedes any and all previously printed or digital literature. That includes catalogs, price lists, fabric cards, flyers, promotional material, web site, social media posts, etc.

WARRANTY

Items sold by M. Deitz & Sons, Inc. are warranted, to the original purchaser, for one year from date of shipment, to be free from defects in workmanship and material with normal use and service. This warranty will still apply even if M. Deitz & Sons, Inc. is apprised of the products final destination. Items will be repaired or replaced under this warranty provided the factory is notified in writing within 15 days of the discovery of the defect. The warranty is void if items are repaired or altered by any other person than one authorized by the factory. The defective item is to be returned to the factory, with prior written approval, on a prepaid basis. All items sold by M. Deitz & Sons, Inc. are manufactured for indoor use, unless otherwise specified. This warranty is void on all items used outdoors, subjected to extreme exposure, heat, cold, moisture, salt-air, abuse, neglect, direct sunlight, etc. The warranty does not cover upholstery materials. Please consult the individual fabric manufacturer for their warranty. The warranty does not cover table tops that warp or cup unless they are ordered with a backing sheet or stabilizer bars. Under no circumstances shall liability under this warranty exceed the original purchase price of the defective merchandise.

PLACING ORDERS

Phone orders will not be accepted. All purchase orders must be made in writing and mailed, faxed or E-mailed to our offices. If faxed or e-mailed copies are followed by a mailed copy, the mailed copy must specify that it is a "confirming" order and not to be duplicated. All orders must indicate the exact model number, quantity, finish, upholstery material(s), pricing, etc. Written order confirmations will be faxed or e-mail back with all pertinent information as well as an approximate ship date. THIS DATE IS ONLY AN ESTIMATE AND IS NOT BINDING. M. Deitz & Sons, Inc. cannot be held liable for any order shipped beyond our estimated date. If an exact date of shipment or arrival is needed, this must be clearly spelled out on the purchase order. Our confirmation will then specify the exact ship or arrival date or the earliest possible date that we could meet. Exact arrival dates may incur additional charges assessed by the transportation company being used. M. Deitz & Sons, Inc. will not be responsible for mistakes in any order where information is missing or deleted. We will also not be responsible for orders delayed in processing due to missing information. For example an order specifying "grade #5 Forest Green upholstery" is incomplete because it does not specify which particular grade #5 pattern is to be used.

TERMS

Terms are strict net 30 days after credit has been established. All initial orders are to be paid for in full in advance of shipment or pickup even if a request to establish credit terms has been submitted. Orders placed that are COD or CIA require a 50% deposit to be submitted before any materials are put into production. The remaining balance is due in advance of shipment. Balances and COD's must be paid in cashiers check, certified check, money order or wire transfer. If a regular check is presented for prepayment, the check must be allowed to clear our bank before any merchandise is released. Deposits may be required for custom work and non-stock items regardless of credit standing. Any account with balances that are beyond the 30 day credit period may have current orders delayed in processing and shipment. Any open account customer with a balance beyond 50 days of billing date will automatically lose their credit standing, and be required to pay for all subsequent orders in advance. All payments are to be made in US dollars. Checks returned for any reason will incur a \$30.00 net processing charge. M. Deitz & Sons, Inc. reserves the right to alter or eliminate credit terms at its discretion, at any time, without recourse.

QUOTES/PRICING

All written quotes directly from the factory are valid for 30 days unless otherwise noted. Pricing is subject to change without notice. All prices in this work book are list prices/suggested retail and FOB factory.

DEDUCTIONS

No deductions can be made from any invoice unless approved in advance and in writing by M. Deitz and Sons, Inc.

GENERAL INFORMATION

TARFFS

Tariffs that have been placed on imported products by the United States Government are an additional cost that IS NOT included in the prices listed in this Workbook. Since the tariffs are temporary, vary in size and do not apply to all of our products it is recommended to contact customer service in advance of placing an order. Products that do have tariffs associated with them will be invoiced at normal net cost. An additional line will appear on the invoice listing the tariff and the total amount we are required to collect.

SPECIFICATIONS

Specifications listed in this Workbook/Price List, as well as our catalog and web site supersede all other previously listed specifications. M. Deitz & Sons, Inc. shall not be liable for typographical errors in any printed/digital literature, quotation, on any correspondence directly from the factory or from our agents or on our web site. Typographical errors are to include dimensions, costs, weights, enhancements, etc. Weights in this workbook are for carton/packaged items and listed in pounds. All dimensions are in inches and have tolerances of +/- 1". The factory reserves the right to make changes, at any time, without notice, in materials, dimensions, specifications, colors, designs, etc. without obligation to make the revisions or modifications to products fabricated at a previous time. Customers desiring any enhancements or new revisions can contact the factory for the costs to implement the changes. The maximum table top size recommended for a table pedestal is based on the top not weighing more than 4.5 lbs. per square foot. It is suggested that customer service is contacted to recommend a pedestal that would be suited to support table tops that weigh more

MINIMUM ORDER

Items in our price list are based on the following minimums (unless otherwise noted):

- 10 chairs of 1 style, finish, etc.
- 10 bar stools of 1 style, finish, etc.
- 10 table bases of 1 style and finish
- 10 counter stools of 1 style, finish, height, etc.

Orders that do not meet minimum are subject to a surcharge of no less than 10%, or may not be accepted at all.

FIRE RATING AND CODE COMPLIANCE

M. Deitz and Sons, Inc. makes no claims that any standard product sold, will pass or comply with any specific fire code or ordinance beyond code **Cal. #117 and Boston Code #117/2013**. It is the customer's responsibility to contact local officials to determine what, if any, fire codes the furniture being purchased must pass. We have the ability to fabricate upholstery and certain frames to meet most fire code requirements. Please consult the factory in advance with your fire retardant specifications to find out the additional costs (if any) to have furniture made to the specific codes. In special situations, certification must be presented to show that the product meets certain burn test criteria. M. Deitz & Sons Inc. has had several items tested and they have complied with some of the most stringent fire codes. The tests conducted are for "generic" items and can only be used on a "comparable" basis. It is the customer's responsibility to see if the local fire authorities will accept our test for "comparable" items. If not, then a test must be ordered and conducted on an exact item. The additional cost associated with a burn test can be quoted upon request. The cost of the test, a sample product and all transportation costs would be incurred by the customer. M. Deitz & Sons, Inc. will not take back merchandise that is refused by any official for lack of documentation, certification, etc. if it is not requested prior to the fabrication of an order. The factory also will not incur any additional costs to make existing furniture code compliant if we were not notified of the requirements in advance of production. M. Deitz & Sons Inc. will also not take responsibility for any items fabricated with COM or customer specified materials that have not been sent out for an appropriate burn test. It is the customer's responsibility to make sure the material being sent or specified will pass the appropriate tests when used with suitable components.

GENERAL INFORMATION

FREIGHT QUOTES

All written freight quotes from M. Deitz & Sons, Inc. are valid for 30 days unless otherwise noted. Freight can be quoted as a separate item or will appear as a separate line item on our acknowledgement. Standard freight quotes are based on shipments going from our location to a commercial establishment with a loading dock. Freight charges will vary based on the unloading capabilities at the location, access to the location, time of delivery, help at the location, type of facility (school, government installation, country club, restaurant, health care facility, hospital, etc.). All this pertinent information should be presented to customer service when asking for a freight rate. Additional services such as inside delivery, delivering at a specific time or on a specific date, lift gate, un-cartoning, calling for a delivery appointment, carrier inspection, security inspection, border inspection, etc. will incur additional charges and should be noted when asking for a freight rate. Unless requested at the time of the quote, these services are not included in the quote. M. Deitz & Sons, Inc. reserves the right to bill our customers for any and all extra charges assessed by the freight companies for additional services required/rendered that were not requested prior to quoting the freight charges. Orders that have shipped and been requested to be held at a trucking company's facility, or re-consigned by our customer or the consignee will be subject to additional charges above and beyond the original freight quote. The charges will be based on the terms, conditions, and costs associated with the particular shipping company used.

SHIPMENTS

All shipments are FOB our factories and warehouses, unless otherwise specified. Unless a preferential carrier is named merchandise will be shipped "Best Way". We take no responsibility for variances for freight rates, classifications, charges, or delays in transit. The factory's responsibility ceases when merchandise is received by the carrier in good order. Any damages should be marked on the bill of lading at time of delivery. Our shipping cartons are also printed with this information and clearly spell out these necessary procedures. Failure to sign the bill of lading properly will hinder the possibility of being compensated by the trucking company for any loss or damage. All items should also be inspected within 24 hours of receipt for concealed damage, shortages and correctness of order. If damages have occurred, contact the delivering carrier and save all original cartons and packaging material for the carrier's inspection. All claims for damages or shortages must be filed immediately with the delivering carrier. It is the customer's responsibility to file any freight claim. All shortages must be reported to the factory within 48 hours of receiving the merchandise even if the bill of lading was marked accordingly. We will assist in any way possible to help process and expedite a claim. Under no circumstances should a deduction be made from our invoice to compensate for any problems incurred by a shipping company. Any open account customer requesting freight charges "Prepay and Add" will incur an additional charge of 10% of the freight costs. This fee is to cover the processing of paperwork submitted by the freight carrier. Third party billing instructions will only be honored for customers with open account status. All other accounts will have to pay for freight charges in advance or have orders shipped freight collect. We do not feel UPS or any other parcel services are a suitable means of shipping our merchandise. Please note, customers requesting UPS or other parcel services, when that service is available, the items will ship at a "dimensional" weight, and may even incur an additional oversized package charge. This means regardless of the package contents, value or weight, the parcel services will take the cubic dimensions of the carton, use a formula, and calculate the dimensional weight. For example, a 15 lbs. chair may ship at a dimensional weight of 90lbs. due to the size of the carton. If needed, contact customer service for the carton dimensions for an item, if it must ship with a parcel service. Expedited shipping service, next day air, second day air, etc. are the sole responsibility of the customer. M. Deitz & Sons, Inc will not incur this type of charge. If you require this type of shipping service, the arrangements must be made by the customer/consignee and the factory is to be notified of the method of shipment.

GENERAL INFORMATION

PALLETIZING OF SHIPMENTS

Many trucking companies will no longer take loose cartons and require that all merchandise is shrink wrapped on pallets. When specifying a preferential trucking company we are to ship with, it is the customers responsibility to notify the factory if the trucking company will accept loose cartons or if the shipment must be made on pallets. Palletizing shipments will increase the overall weight of the shipment and may change the classification of the product on them. There will be an additional charge of \$20.00 net for each pallet needed to package a shipment. It is recommended to contact customer service in advance of placing an order if these charges apply.

DISCONTIUED ITEMS

M. Deitz & Sons, Inc. reserves the right to discontinue any item at any time for any reason. Once an item is discontinued M. Deitz & Sons, Inc. cannot be held liable to provide that item. This liability will cover all current and future projects as well as matching previously shipped merchandise.

SAMPLES

Samples are available for current customers. Samples must be ordered by formal purchase order and are to be paid for. Generic samples that are produced and returned in saleable condition within 30 days will be credited in full. The corresponding shipping charges from the factory to the customer and the return charges are the responsibility of the ordering party. The factory is willing to produce 1 exact sample (when possible) with the hopes that it becomes part of a larger order. Items fabricated to exact specifications for specific jobs and/or bids are not returnable and must be paid for in full. Special pricing and allowances are available for showroom or trade show booths. Pricing is to be discussed with your local sales representative or the factory in advance. All freight charges related to samples are the responsibility of the customer.

MATCHING ORDERS

Current orders that require matching previous merchandise/shipments must indicate on the purchase order "Matching Order". Purchase orders should specify the date and invoice number of the order we are to match. M. Deitz & Sons, Inc. will make every attempt to match previously shipped merchandise. Due to revised specifications, discontinuation of materials, etc. matching a pre-existing order is not always possible.

CUSTOM ORDERS

Custom orders cannot be canceled or changed once they have been started. Custom orders cannot be returned for any reason once they have been shipped. Deposits may be required on custom work regardless of credit status. Custom merchandise includes any items upholstered with a COM.

RETURNS

The factory will inspect warranty items for repair or replacement only with prior written authorization. All items shipped back to the factory must be done on a prepaid basis only. Any item shipped to the factory freight collect will be refused. Requests to return merchandise for reasons other than warranty inspection will be reviewed as to the nature and scope of the return. Not all items will be eligible for return. Items that are accepted for return will incur a restocking charge of no less than 20%. The restocking charge will depend on the nature of the item and the amount of customization and upholstery involved, if any. Customers will also be required to pay for all inbound and outbound shipping charges. Merchandise that had been used or put into service for any length of time is non-returnable unless approved by M. Deitz & Sons, Inc. in advance. Custom, altered and non-stock items are not returnable.

MAINTENANCE

To insure durability and proper use of the products, routine periodic inspection must be made. Inspection should cover all joints, corner blocks, stress points, welded areas, glides, etc. Loosened screws should be tightened. Areas that are welded should be inspected for fatigue. Items that show defects or appear unstable should be taken out of service immediately. Failure to properly maintain the product(s) may void the warranty.

GENERAL INFORMATION

CANCELLATIONS

Once a customer has forwarded a purchase order to the factory it is considered a firm order. Orders cannot be canceled or changed without written authorization from M. Deitz & Sons, Inc. Orders in progress that need to be changed or canceled are subject to a charge not to exceed 50% of the item's net price. The charge will be determined by the amount of goods and raw materials that have been ordered/put into process to manufacture the job. Custom orders and orders that are complete CAN NOT be canceled. Please contact the factory immediately, to determine the charge, if any, for cancellation of an order.

DELAYED ORDERS

Orders that are being processed or are ready for shipment, and requested to be held in our facility at the customer's request, will be subject to storage charges. Orders will be held for a maximum of 2 calendar days at no charge. If the merchandise does not ship on the 2nd day, the customer will be invoiced on that day, and will be expected to pay for the merchandise, regardless of when it ships, within the terms of the invoice. Storage charges will start to accrue on merchandise that remains in our facility beyond the 2nd day. Charges will be calculated on a cubic foot basis. The cost will be no less than \$20.00 net per calendar day. After 14 calendar days merchandise that has not been shipped will be transported to a public storage facility. All costs, transportation, handling, storage, etc. will be the customer's responsibility. All charges for storage, handling, etc. will be due prior to release of the merchandise. Orders that have shipped and been requested to be held at a trucking company's facility will be subject to the terms, conditions, and costs associated with that particular shipping company.

PRODUCT ENHANCEMENTS

M. Deitz & Son, Inc. is constantly looking at new ways to enhance and strengthen the products we manufacture and sell. Additional bracing, bolting, etc., is available above and beyond standard construction on our wood furniture. Below is a short list of additional features and charges for enhancements to our furniture. If your customer has a specific request not listed below feel free contact customer service for a quote.

1" x 1" L steel brackets (wood chairs and stools)	\$1.50 list/pair
1 3/8" x 1 3/8" steel corner brackets (wood chairs and stools)	\$2.50 list/pair
1/4" x 20 steel carriage bolts in place of standard lag bolt	\$15.00 list/pair
Webbed seats on wood and metal furniture	Consult specific item in price list

CARRIAGE BOLT CONSTRUCTION

Carriage bolt construction is standard on many wood chairs and bar stools and is available as an option on most other items. Standard lag bolts are removed and a carriage bolt is installed from the outside of the back leg, through the seat rim. This method of construction adds strength and longevity to the product. Carriage bolts are available in brass, chrome, black and statuary bronze finishes. Brass plated bolts are standard, but M. Deitz and Sons, Inc. will use at its discretion the bolt color that we feel will be appropriate unless a specific color of bolt is requested on the purchase order.

MATERIAL GRADING

M. Deitz & Sons, Inc bases the grades of the vinyl and fabrics shown on our web site and on our fabric vendors sites on several criteria – cost, pattern, workability of the material, yield, as well as several other factors. Grading of materials is not always consistent and varies between manufacturers. It is suggested that a customer requesting a material shown by another vendor contact customer service for exact pricing or grading on that particular piece of material. M. Deitz & Sons, Inc. will not always honor pricing for a material shown by a competitor at that vendor's grade.

GENERAL INFORMATION

CUSTOMER'S OWN MATERIAL—COM

COM's are accepted at Grade #3 pricing. The factory has the right to add a 15%-20% charge to COM's for patterned, striped, directional, or material that is difficult to work with. This includes solid colored materials that are to be run in a single direction ie: velour, faux suede, mico-suede, Mohair, etc. Specific, written instructions need to be provided on the order if pattern matching is required. COM's should be clearly labeled when forwarded to the factory. No material will be accepted COD or freight collect. A sample of the fabric should be sent with the order stating the supplier, pattern name, yardage supplied, face of the material, and the direction (if necessary) the material should run on the furniture. If specific information about the application of COM material is not provided, M. Deitz & Sons, Inc. will apply the material in the way it deems proper, and will not be held liable for incorrect installation. This includes the use of Polyurethane materials. It is suggested that the manufacturer of the material(s) being provided as COM be contacted in advance to find out the limitations or requirements for application. COM requirements listed in our literature are based on upholstering 1 piece of furniture. Larger orders generally will require less material. It is advisable to contact the factory in advance for exact yardage requirements. All COM amounts are based on 54" wide usable material. Narrower widths, patterned, directional or striped materials will require additional yardage. M. Deitz & Sons, Inc. reserves the right to refuse the use of any COM due to inadequate quality, workability, stretch or pattern. Any furniture upholstered with a COM is considered a custom item and is not returnable once shipped.

CUSTOMER'S OWN LEATHER—COL

There will be a 15% up-charge to apply leather to any standard pull over or nail trim seat. Any product with a fully wrapped seat, upholstered backrest or any item that needs the leather to be sewn will be quoted upon request. It is recommended that an adequate sized sample of the leather be provided in advance of placing an order. First, to make sure that it can be applied to the item(s) being ordered, and what the additional up-charge will be assessed.

UPHOLSTERY MATERIALS

It is the customers' and/or specifiers' responsibility to advise M. Deitz and Sons, Inc. of any and all limitations of the application the materials that are to be used on the furniture being ordered. This includes, but is not limited to pleating, folding, direction, sewing methods, etc. This also pertains to all materials that have been specified and M. Deitz and Sons, Inc. is required to acquire. Without specific application information we will not be responsible for any current or future problems that may occur with the material. This limitation will also

UPHOLSTERED BACKS

Certain items that have upholstered backrests, etc. are done by installing the upholstery with nails through the face of the material. Items that require this nailing process include any woven fabric up to Grade #6 at no additional charge. Fabrics will diminish the appearance of pin holes left by the nailing process. M. Deitz and Sons, Inc. will not use a vinyl for these items as the pinholes will be apparent. If a vinyl is required for the upholstery our nail trim or double welting options will need to be ordered. Consult the specific item for the cost (if any) to have these options applied.

GENERAL INFORMATION

DIMENSIONS

Dimensions in our catalog, price list and on our web site are subject to change. Dimensions are in inches and weights are in pounds. All tolerances are +/- 1". Overall dimensions listed in our literature are of un-cartoned items. Carton dimensions and cubic dimensions of shipping cartons can be supplied upon request.

EXPEDITED ORDERS

M. Deitz & Sons, Inc. has the ability (when possible) to expedite customer's orders that are required in advance of scheduled production time. The charge to expedite an order will be no less than 10% of the net cost of the order. This charge may increase depending upon the availability of raw materials, fabrics, etc. and the flexibility of current production schedules. Please contact the factory with your specific request for an accurate quote. Expedited orders once complete CANNOT be held or delayed for any length of time. Expedited orders that are not picked up or shipped, at no fault of M. Deitz and Sons, Inc. will be invoiced and storage charges will start to accrue immediately from the date that the merchandise was completed.

ARM STYLE AND ARM HEIGHTS

The heights listed for arms in this Workbook and the styles shown in our literature and our web site are subject to variation. Table top and bar top thickness, skirting, or custom height table bases may all be factors that will limit an arm chair or bar stools use. It is the customers responsibility to advise us in advance of production if the height of the arm is a crucial factor in fitting under a table or bar top. At that time we will confirm that the style and overall height of the arm will meet the criteria to clear the item it is being used with.

SEAT HEIGHT

Unless otherwise noted, the seat height will be 18" to 19" on all chairs, and 29" to 31" on all bar and permanent mount counter stools. M. Deitz & Sons, Inc. calculates the seat height on upholstered items with some compression in the seat cushion. Altered heights, taller or shorter than standard, may be available on select items. Please consult the price list or customer service with your specific request.

APPROPRIATE SELECTION OF A PRODUCT

M. Deitz & Sons, Inc. is a firm believer that some products are better suited for a particular situation than others. Even though all of the products we sell are made for commercial use there are times where one product may suit an application better than another. Placing a product in a location that is not appropriate may have a bearing on its usefulness and longevity. If there are any questions whether the product being selected is suitable for a project please contact customer service in advance of placing an order. We will be glad to assist in recommending a better suited product or make suggestions how the existing specified product could be altered or strengthened. Our warranty may be voided on furniture placed in an environment where it was obviously incorrectly specified or if another product or products would have been better suited. M. Deitz and Sons, Inc. product's are produced for the contract market. Anyone wishing to place our product into the residential market must understand the differences between the two. The first priority for contract products is construction. Our furniture is built to hold up and withstand the physical stresses in high traffic restaurants, schools, institutions, cafes, hotels, etc. Residential furniture, on the other hand is made with aesthetics as the first priority. People that are purchasing commercial furniture for their home should be made aware of these facts. Slight blemishes and imperfections that may occur on a commercial product and that are acceptable in a business application may not be acceptable for someone's home. This is why M. Deitz and Sons, Inc. will only accept small orders with the implied understanding that this information has been relayed to the final user of the product. If there is a problem between our customer and the end user pertaining to an aesthetic issue M. Deitz and Sons, Inc. will not address the issue as to a credit, replacement or return.

FOOTREST PROTECTORS

Metal protectors are available on many of our wood bar stools with flat footrests. This feature is standard on certain items and as an option on others. Please consult the specific item for the cost, if any, to apply the footrest protector. Unless specified a satin brass footrest protector will be used. Satin chrome and black protectors are also available at no additional charge. Please specify on the order which protector is to be applied. Footrest protectors are metal with a decorative finish.

GENERAL INFORMATION

DECORATIVE NAILS

Unless specified or noted otherwise Antique Hammered brass colored nails will be used on all items showing the decorative nail feature on seats and backrests. Customers can also request several other nail styles and finishes at no additional charge. Under no circumstance will M. Deitz and Sons, Inc. incur any cost to change the nails once applied unless we were notified of an alternative selection, in writing, in advance of production. Samples can be provided at no cost. All nails are steel with a plated finish:

<u>Standard</u>	Antique hammered head with a brass finish	
<u>Options</u>	Pewter	Smooth head with a matte grey finish
	Satin Chrome	Smooth head with a semi gloss silver finish
	Polished Chrome	Smooth head with bright polished silver finish
	Hammered Silver	Antique hammered head with a silver finish
	Polished Brass	Smooth head with bright polished brass finish
	Old Brass/Old Gold	Smooth head with brass finish in the center and a black perimeter
	Old Copper	Smooth head with copper finish in the center and a black perimeter
	Old Silver	Smooth head with silver finish in the center and a black perimeter
	French Natural	Smooth head with a gold tone
	Bronze	Smooth head with a brown/bronze color
	Black	Smooth head with a gloss black finish

NAIL TRIM SEATS

Upholstered seat panels in many cases can have decorative nail trim follow the perimeter of the horizontal portion of the seat. This method is less expensive than having a cobbler seat applied to a product. Consult the specific item in the price list or contact the factory with your request.

COBBLER SEATS

Nail trim cobbler seats are available on certain chairs and bar stools. The upholstery will be applied to the existing finished veneer, wood or saddle seat. Consult the specific item in the price list or contact the factory with your request. Cobbler seats are available in 3 different styles:

<u>Bentwood</u>	Decorative nails are applied into the veneer portion of the bentwood seating. The wood beading around the veneer will remain exposed.
<u>Perimeter</u>	There is a 1 ½" to 2" wood border around the upholstery on the horizontal portion of the seat.
<u>Waterfall</u>	There is a 1 ½" to 2" wood border around the upholstery on the horizontal portion of 2 sides and rear of the seat. The front portion of the upholstery will wrap over the vertical face of the seat and attach to the underside of the seat. The nail trim will follow the material on 3 sides and down the front of the seat.

UPHOLSTERY OPTIONS

-Self welting same color and grade (where not standard)	add \$6.00 list
-Self welting same or lower grade contrasting color (where not standard)	add \$8.00 list
-Self welting higher grade than seat cushion:	quoted on request
-Split seat (2 colors same grade). Split will run front to back	add \$40.00 list
-Split seat (3 colors same grade). Split will run front to back	add \$50.00 list
-Split seat – custom pattern	quoted on request
-Split back (2 colors same grade). Split will run vertically.	add \$60.00 list
-Split back (3 colors same grade). Split will run vertically.	quoted on request
-Padded seat rims	consult specific item
-Padded seat rims with full nail trim	consult specific item
-Decorative upholstered buttons	quoted upon request
-Sewn quilting or tufting	quoted upon request
-Sewn quilting or tufting with decorative upholstered buttons	quoted upon request
-Button tufting with decorative upholstered buttons	quoted upon request

EXPLANATION OF TERMS

BS	Bar stool
OH	Overall height of the product. Measured from the floor to the highest point on the product
W	Width. The overall widest dimension of a product (seat, leg spread, back width, etc)
D	Depth. The overall deepest dimension of a product (seat depth, leg spread, etc)
AH	Arm height. Dimension from the floor to the highest portion of the arm rest
SH	Seat height. Standard seat height is 18" to 19" on chairs and 29" to 31" on barstools. Seat height is calculated with some compression in the seat pad on upholstered items.
COM	Customers own material. Figures listed in our price list are the requirements to upholster one chair or stool. Consult customer service for COM requirements on larger orders.
PS	Pad seat. Replaceable upholstered seat panel attached to chair or bar stool frame.
VS	Veneer seat. Wood veneer permanently attached to the Bentwood wood chair or bar stool frame.
WS	Wood seat. Finished plywood panel attached to seat frame with screws and/or brackets. 1/2" thick
SS	Saddle seat. Finished solid wood butcher block style seat attached to the chair or bar stool frame with screws and/or brackets. Generally 1" thick
A	Arms that are added to an existing chair or bar stool frame
PB	Padded back. A large portion of the backrest is upholstered, in most cases by nailing an upholstered panel onto the inside of the backrest.
POB	Padded outside back. A large portion of the outside of the backrest is upholstered, in most cases by nailing an upholstered panel onto the backside of the furniture.
PSPB	Padded seat and inside of backrest.
PSR	Padded seat rim. The vertical and horizontal portion of the seat rim is covered in upholstery material leaving no wood trim showing. Self welting is included on the upholstered seat panel when this option is ordered. Decorative nails are applied on the front and sides of the front legs only.
FWS	Fully wrapped seat. The seat portion of the chair frame (seat rim) is upholstered by wrapping material around the seat and attaching the upholstery directly to the underside of the frame. Decorative nails are applied on the front and sides of the front legs only.
WPB	Window pane upholstered back. The backrest portion of the chair or stool is fully covered by the upholstery. The material covers the entire face, top and sides of the item and is attached to the outside backrest forming a "window pane" effect. There is a border of material on the top and 2 sides of the backrest. The item is finished by applying decorative nail trim up and down both sides and across the upper portion of the backrest. In some cases double welting is available in place of the nails.
LH	Lounge height. Items that are fabricated for use in a lounge setting. Table bases will be 16 3/4" to 18" to the top of spider, complete tables will be approximately 18" to 21" overall height. Seat height on chairs or revised bar stools will be 18"-19". Heights can be revised to customer specifications.
NT	Nail trim. Decorative nails are used to finish off upholstery on seats (NTS) or backrests (NTB). Standard nails are antique brass nails. Other styles are also available.
DCS	Direct cobbler seat. Available on traditional bentwood chairs and stools. The upholstery is directly applied to the veneer seat and the perimeter is finished with decorative nails. The wood beading around the veneer remains exposed.
BH	Bar height. This specifies that table bases are over 40" for use with bar stools.
BHFTR	Bar height with footring. Steel table base columns with footrings applied to the columns.
FTR	Footring. A footring or foot pad is placed on an existing item (bar stool or bar height table base) for customer comfort.
SCFTR	Smooth steel table base column with a steel footring. This term applies to cast iron bar height table pedestals where a footring is desired.
FC	Florentine column. This term applies to cast iron table pedestals where there is a decorative cast iron column.
SC	Smooth steel columns. This term applies to cast iron table pedestals where a smooth steel column is required in place of a cast iron column.
Split seat	2 or more different colored upholsteries applied to a seat, from front to back.
Split backs	2 or more different colored upholsteries applied to a backrest, from top to bottom.
Contrasting seat	The wood seat added onto chair/stool to be finished in a different color than the main body of the item. The seat can be one of the other existing finishes for that item

3230BHFTR	30"x30"	3"x38"	13"x13"	40.5"	188.00	181.00	26lbs	36" rnd.
3222LH	22"x22"	3"x14"	13"x13"	16.75"	122.50	120.00	13lbs	30"x30"
3230LH	30"x30"	3"x14"	13"x13"	16.75"	134.00	130.00	22lbs	36"x36"

Features:

Matte black textured finish.

Adjustable thread in glides.

Options:

Add \$12.00 for 4"x25.5" black column in place of 3"x25.5" black column when possible.

Add \$40.00 per base for self adjusting glides (4 glides) except for end base add \$20.00 (2 glides). See page 100 for details.

Columns shorter than standard, add \$40.00 to the next tallest complete base price and specify overall height required.

See Page 99 for the additional costs to add an adjustable height column.

#300 Series Bases Chrome Finish	Leg Spread	Column Size	Spider	Overall Height	1-50	51+	Weight Each	Top Size

9026BHFTR (three leg)	26"	3"	13"x13"	40.5"	387.00	380.00	43lbs	36" rnd.

Features:

Matte black textured finish.
Adjustable thread in glides
Standard height bases have decorative cast iron columns.
Decorative cast iron bar height column styles are subject to change.
Bar height "BHSC" and "BHFTR" columns are smooth steel.
"BHFTR" columns have welded 19" diameter foot ring.

Options:

Add \$30.00 to the #9032 base for self adjusting glides (4 glides). See page 100 for details.
"SC" columns shorter than standard height, add \$40.00 and specify overall size.
Call for pricing and limitations on custom height ornate cast iron columns.

#910 Series Bases Black Finish	Leg Spread	Column Size	Spider	Overall Height	1-50	51+	Weight Each	Top Size
9126 (end base)	26"	3"	13"x13"	28"	245.00	240.00	43lbs	30"x60"
9126BH (end base)	26"	3"	13"x13"	40"	315.00	305.00	52lbs	30"x60"

Features:

Matte black textured finish.
Adjustable thread in glides.
Standard height bases have decorative cast iron columns.
Decorative cast iron bar height column styles are subject to change.

Options:

Add \$15.00 to the prices listed above for self adjusting glides (2 glides). See page 100 for details.
Call for pricing and limitations on custom height ornate cast iron columns.

#930 Series Bases Black Finish	Leg Spread	Column Size	Spider	Overall Height	1-50	51+	Weight Each	Top Size
9325	25 1/2"	3"	13"x13"	28"	240.00	232.00	46bs	36"x36"
9325BHSC	25 1/2"	3"	13"x13"	40.5"	265.00	260.00	40lbs	36" rd.

Options: Columns shorter than standard, add \$50.00 to the next tallest complete base and specify overall size.

Call for quote on alternative spider sizes.

This base is to be discontinued once current inventory levels are depleted.

#100FTS Option Top Spider	Leg Spread	Column Size	Spider	Overall Height	1-50	51+	Weight Each	Top Size
100FTS	N/A	N/A	8"x8"	1.25"	260.00	250.00	6.5lbs	36" rnd.

Features: Black finish.

Pricing is to be added to the cost of complete base price desired.

Maximum top size to be used should not exceed 36"x36"

Not to be used with square to round tables, stone or solid wood tops.

Tops weighing more than 4.5 lbs. per square foot will effect the stability of the overall table.

This spider can be used on 3" and 4" plain steel columns.

This option is not available on "P" permanent and Florentine bases.

TABLE BASES

#ADJL Adjustable Height Column Low	Column Diam.	Spider	1-50	51+	Shipping Weight	Top Size
---------------------------------------	-----------------	--------	------	-----	--------------------	-------------

ADJL	3 1/4"	10"x10"	125.00	120.00	10 lbs	36"x36"
------	--------	---------	--------	--------	--------	---------

- Features:**
- Matte black textured finish.
 - The cost above is to be added to the standard table height base selected.
 - Adjustable height column for occasional use.
 - It is recommended that the height adjustments be made with the table set on the floor upside down. Two people are recommended to work together to make height adjustments for safety.
 - This column has 3 separate height adjustments and locks into place with 1 threaded set pin.
 - Adjustment settings in the column are in a vertical sequence and will not change the table top to table base orientation.
 - Overall heights to the top of the spider are 18 1/2", 23 1/2" and 28 1/2" when installed on a base plate. These dimensions are approximate and will vary 1" +/- depending upon the base plate selected.
 - This column can be used on the following series of bases: #300, #430, #700, #710, #720, and #730 where 3" columns are standard
- Options:**
- Custom drillings to achieve alternative heights, other than listed can be made. Pricing quoted upon request.
 - These columns may be used on other series of bases. Call with your request for availability and limitations.

Pin-3-40Q	3"	40 1/2"	NA	160.00	155.00	10 lbs

Features:

Black finish.

"Q" models are generally in stock. All other items need to be fabricated.

Pin bases are not supplied with any mounting hardware.

All pin legs are supplied with an adjustable floor leveler.

Pin legs are to be used in conjunction with wall brackets or cantilever bases, they are not to be used as independent legs.

Options:

Non-stock items require a minimum order of 10 identical units.

Custom height columns call for quote and minimums that will apply.

Columns 4" diameter and larger call for quote and minimums that will apply.

Call for quote on custom finishing and plating on pin legs.

NOTES FOR TABLE BASES

Prices listed are for 10 or more table bases of 1 style and finish. 10% will be added to the orders that do not meet minimum. Some styles are not available in less than minimum quantities. For specific options consult notes listed under each base category. Most bases can be finished or plated to customer specifications for an additional charge. Please contact the factory for pricing and availability. All sizes listed are "trade" sizes and may not be exact. Spider and column sizes are subject to change in style and size at our discretion. Contact customer service for specific details on the items that will be provided if necessary.

Add \$7.50 for individual self adjusting glides, packaged separately

Add \$30.00 list for a set of four self adjusting glides, packaged separately.

Add \$37.50 list for a set of five self adjusting glides, packaged separately.

Self adjusting glides will add 3/4" (approx.) to the overall height of table bases. The cost to purchase these glides does not include altering the base to its original height dimension. Please refer to the cost associated with each particular base to have the height altered, if required.

All bases shipped completely knocked down.

Screws to attach table tops are not provided with table bases.

Add \$2.50 for a set of 8 - #10 x 3/4" screws, packaged separately

Add \$2.50 for a set of 8 - #10 x 1" screws, packaged separately

The maximum table top size recommended for a table pedestal is based on the top not weighing more than 4.5 lbs. per square foot. It is suggested that customer service is contacted to recommend a pedestal that would be suited to support table tops that weigh more
